Dear Pastor Lou

I hope all is well with you and your family. It was good to see you and the others again at the last prophetic conference in Jerusalem. I hope yal had a great time in the Lord.

Pastor Lou I keep sensing Jesus moving my heart to share something I experienced in the conference concerning you. You shared with us of how your wife once saw Jesus in one of yal meetings. He was sitting there in yal midst to see what you were going to share. It was about the fear of the Lord.

After you spoke yal encouraged us to be in the presence of the Lord and there was beautiful music in the background. Once your wife encouraged us to dance.

I remember that my whole being wanted to get up and dance but I did

not as I felt like I was being restrained.

You and your wife both just sat there still, waiting. But then something strange happened to me. Being a woman who loves to be just with God and His presence when it manifests sweetly, I found myself doing the opposite this time. I felt nothing, restless and somehow bored. I noticed it was the same for Sarah. So we both decided to go out and take a break.

As soon as we had a sandwich I sensed we needed to go in again. I also slightly remembered your words about you believing Jesus was testing you.

When we returned things were the same. I did not know what to make of it all when suddenly I saw Jesus appear. He sat down by my right side and gently put His hand on my lap. I saw Him looking straight at you and He said to me:

"Just bear with me another 10 minutes, I am testing Lou." And He was gone.

In exactly 10 minutes, like He said, you and your wife began to move and things began to change.

I sensed the Lord telling me to share this and to bless and encourage you and your precious wife to continue in the fear of the Lord. May the Lord raise up more like you in the body of Christ, where the need for good leadership is great. Psalm 12 comes to mind.

" HELP, LORD! For principled and godly people are here no more; faithfulness and the faithful vanish from among the sons of men...."

I also sense I need to say, this time it was different for Sarah and me at the conference. The Lord allowed us only to give two days of our time to be in the conference. While being in yal midst I sensed burning on the Lord's heart was the message of holiness for which me and my

daughter suffered the biggest attacks. Because the enemy hates this message we carry.

In closing I have this word from the Lord to give to you. Proverbs 11:20

" They who are willfully contrary in heart are extremely disgusting and shamefully vile in the eyes of the Lord, but such as are blameless and wholehearted in their ways are His delight. "

Pastor Lou, I believe that the Lord is saying, His delight is in you. Bless you!

Your sister in Christ,

Rogany
